## Syndicate Control

### History/Timeline

---

- 1) 600 Million years ago: Long-claw reptilian like aliens arrive on planet earth to colonize only to find a barren planet and no signs of intelligent life, they leave.
- 2) 75 Million years ago: Grey Reticulian aliens arrive and begin studying dinosaurs and all of the other creatures on earth, running tests and dissecting.
- 3) 66 Million years ago: Long-claw reptilian aliens return to planet earth and a battle is fought between the two classes of aliens. The land is destroyed killing off the dinosaurs and scorching the sky; this was the first attempt at colonization by the Long-claw reptilians. They lost.
- 4) 3 Million years ago: The Grey Reticulian aliens return and find primates, they begin dissecting and studying the great apes, in these experiments they infuse their DNA into the species thus advancing their evolution creating the beginning stages of alien/ape hybrid = humans.
- 5) 2 Million years ago: The Ice Age begins on earth making the planet uninhabitable for the Grey Reticulians and they vanish leaving the humans to fend for themselves.
- 6) 30,000 B.C. Long-claw reptilians return to planet earth to encounter homo-sapiens, a small war rages and the long-claw reptilian aliens are apparently defeated. They leave behind a virus "black oil" that lays dormant in the earth's ice in the form of an evolved pathogen.
- 7) 38,000 BC: The Grey Reticulian aliens return and are infected with the black oil left behind by the Long-claw reptilians, as a result a much stronger and smarter hybrid is created of a mix of both species of aliens a new breed.

A pact of sorts is laid by both sides of the alien race and forced on by the band of hybrid aliens who retreat into deep hibernation inside spaceships that were placed underground in different locations on earth to be buried by time and be protected until the right era when they would reactivate and colonize the planet and enslave the human race.

The greys were exiled from earth and the population of humans they helped create was taken from them.

Some long clawed aliens were taken prisoner and forced into hibernation as well.

These new breed of hybrid shape shifting aliens would infiltrate the human population and in human form would act like gods to the now rapidly evolving human race.

These alien hybrid would order the humans to build massive structures on top of their buried ships to serve as further protection against time and future humans that would

never dig or build at these locations to preserve their heritage or simply because the land would be too uninhabitable. The locations of the buried ships are...

- a. Base 1 = Underneath the ice in Wilkes Land Antarctica (As seen in "Fight the Future")
  - b. Base 2 = Underneath the Great Pyramids of Giza
  - c. Base 3 = Underneath the Peruvian Nazca Lines
  - d. Base 4 = Underneath Chichen Itza in Mexico
  - e. Base 5 = Underneath the sea of Okhotsk Russia
- 
- 8) 2000 BC: The Hybrid Aliens in shape shifted human form become gods to the human ancient civilizations and gave them the knowledge of the solar system, concepts of engineering and mathematics, and became the basis for their religions and cultures.
  - 9) 2561 BC: The Great Pyramids of Giza are constructed on top of Ship 2
  - 10) 3114 BC: With guidance from the hybrid aliens the Mayan calendar is created with the end of time date of December 22, 2012
  - 11) 650 AD: The Nazca Lines are constructed on top of Ship 3
  - 12) 900 AD: Chichen Itza was built on top of Ship 4
  - 13) 1000 AD: Magnetite is discovered and mined; this is used by the Human rebellion that is against the Hybrid Alien Gods, Magnetite is lethal to all aliens.
  - 14) 1300: The Anasazi Culture disappears, some elders hide in a pueblo that contains magnetite to protect them from Aliens. The Hybrid Alien Gods are not seen again.
  - 15) 1943: During WWII Nazi Scientists Sigmund Rascher, Victor Klemper & Hubertus Strughold begin experimenting on Jews at the Dachau Concentration Camp. Hubertus has a 13 year old son named Conrad who often helps his father in the lab with the subjects; Conrad becomes obsessed in continuing his father's work.
  - 16) 1944: DNA is publicly identified for the first time to the scientific community.
  - 17) 1945: President Truman orders "Operation Paper Clip". It was the Office of Strategic Services (OSS) program in which over 1,500 German scientists, technicians, and engineers from Nazi Germany and other foreign countries were brought to the United States for employment, Among them Physicians Victor Klemper, Hubertus Strughold and his 15 year old son Conrad. The Pentagon and its new team of researchers begin taking DNA samples from every American citizen for testing, cataloging and referencing using routine inoculation and vaccines.
  - 18) 1946: The first X File is created by J. Edgar Hoover.
  - 19) 1947: A Grey Reticulian U.F.O Crashes in the desert of Roswell New Mexico (It is brought down by Magnetite deposits in nearby rocks) the craft and the bodies are taken over by government personnel. The U.S. government begins harvesting Alien technology; they recover grey alien DNA from the bodies and begin work on studying it and manipulating it for cloning experiments and cross breeding. The government also discovers the existence of the alien virus and the colonization of earth on the set date of December 22, 2012 from the Ship's databanks.

Following the Roswell Incident, a group of US State Department officials make contact with the alien colonists, and form a top secret agency within the Department to plan and possibly combat the coming colonization. The small group of government officials threatens the colonists by displaying the weapons of mass destruction they had created; they would deploy atomic bombs all over the world rendering earth uninhabitable for all unless an agreement could be made by both sides the humans and the colonists. Thus Operation "Purity Control" was born. This is the small beginnings of "The Syndicate".

- 20) 1948: The operation "Purity Control," begins and cloning operations were spread across the country, the cataloging and record-keeping done through a complex intra-institutional system that connected to every branch of government, from the Social Security Administration to the Department of Defense was originally the brainchild of Hubertus Strughold who was allowed to continue the eugenic experiments that were Hitler's dark legacy. An 18 year old Conrad Strughold gains momentum in education and business.

- 23) 1963: The Arecibo Observatory is built in Puerto Rico
- 24) 1967: Four U.F.O. Sightings over Lake Okobogee, A Girl Scout named Darlene Morris photographs it and is discredited and ridiculed for the rest of her life. The sightings were brushed off by the government who denied they were U.F.O's and concluded them to be weather balloons.
- 25) 1973: A group of government agents make contact with a group of Grey aliens, a group of powerful men called "The Syndicate" had begun as a subset of a shadow intelligence agency whose original orders were to create plausible denial and an effective cover-up of Purity Control. "The Syndicate" led by Conrad Strughold now a powerful industrialist begin experimenting on human/alien hybrids in Tunisia Africa with the power of alien technology, and the information of the colonization they begin to create the future and a planned Armageddon, The syndicate becomes a powerful rouge shadow government who begin to work with the alien colonists.

William Mulder opposes the syndicate's plans and thinks working with the aliens would be a bad idea. Each member of the syndicate is to sacrifice one member of their families to be taken by the aliens in exchange for the only thing missing for them to proceed with their hybrid program. An alien fetus.

- 27) 1975: "The Syndicate" practices their power of cover-up and at times used the UFO phenomenon to create a hysteria that science denounced, so completely, as to make belief in believers seem ridiculous and completely discreditable. This was to discredit the truth and create a new type of public, a public who was afraid of the truth and who would not want to believe. Plausible deniability was an affective cover up for "Purity Control."

Mulder follows the clues and it leads him to doctor who gets murdered, in his lab he finds a flask with a liquid labeled Purity Control, Scully takes it and gets it analyzed to discover the flask contains a sample of bacteria that doesn't exist anywhere in nature and can only be described as extraterrestrial. Mulder discovers a storage facility where they are creating a virus extracted from Extraterrestrial DNA, The alien human hybrid theory is true and has been successful, Scully discovers the Alien embryo encased in cryogenics and takes it only to give it back to the men she took it from to save Mulder's life.
- 36) 1995: Led by an old photograph of his father and a group of scientists, Mulder and Scully discover more than they could imagine at the Strughold Mining Company in West Virginia. They are given information by Victor Klemper the ex-Nazi Scientist who migrated here from Germany after the war. He informs them to go to the mine. There they find thousands of files with medical records here is where all of the data and tissue

samples are kept from the people the syndicate has abducted including Scully and Mulder's sister Samantha. Victor Klemper is later killed by "The Syndicate".

- 37) 1998: In Blackwood County, North Texas, a boy falls into a pit which is actually a cave, the boy finds the bones of two primitive men who died in 35,000 B.C.. He also finds a puddle of a strange, black substance that enters his body and paralyzes him. It is discovered by "The Syndicate" that the Black Oil is no longer just an agent that would enslave humans during colonization but a colonizing force that feeds on its host and becomes a fully grown alien being. Ship 1 in Wilkes Land Antarctica is attacked by Agent Mulder who injects a weak vaccine into one of the cryopods where Agent Scully is. The ship activates prematurely and the clone aliens awaken as the ship leaves earth.
- 38) 1999: The Syndicate is destroyed by a band of alien rebels who incinerated the group. Orders were given by Conrad Strughold. He becomes the one and only surviving member "The Syndicate". With this destruction a new era is born, a new Syndicate.

Fox Mulder is pardoned and all charges against him are dropped.
- 44) 2010: The FBI reopens and reinvents the X-Files now titled D.P.R. (Department of Paranormal Research) now a bigger division is brought to a higher level in the building, no longer in the basement it is a fully functioning staff driven, respectable department resurrected by Agent Monica Reyes who runs the operation. They have a full medical staff and a team of young highly motivated investigators.
- 45) 2011: Mulder Obsessed with the date of colonization drawing near he finds a group of apocalyptic radicals known as "The Seekers" It is said that they were a cult made up of abductees who believed that after the date of colonization they would be saved, they would be picked because of their implants to return with the colonists to their home

planet and be saved when colonization began. Mulder infiltrated this group and gained more information about the events and whereabouts of the colonization.

- 46) 2012: December 22 is the final date of the world as predicted by the Mayan Calendar, this is also the planned date for Alien Colonization. Mulder finds information from an old woman named Guadalupe Sincero who reveals to Mulder the location where the shadow government would take refuge and where the New World Order would begin their government of the enslaved human race. The Denver Airport. Mulder and the seekers find their way to the airport where they waited in hiding for the colonization and the new government. Unbeknownst to Mulder The seekers planned to blow up the airport and had evolved into a violent terrorists group.

Since the syndicate betrayed the colonists and developed a weak vaccine against them and the syndicate was betrayed by Strughold and murdered by the Alien Bounty Hunter, the colonization never took place. The plans for set Armageddon were redesigned now Strughold alone would deal with the colonists without a syndicate and without a government. He alone held the key to his own immortality and the future of world domination. Strughold had William!
